July 11, 1984

Mr. Joe Morgan III, Technical Director  
J. H. Baxter & Company  
1700 S. El Camino Real  
San Mateo, California 94402

Withdrawal of Part A Application for the  
J. H. Baxter & Company Facility (WAD053823019)  
in Arlington, Washington

Dear Mr. Morgan:

Pursuant to your letter dated May 4, 1984, this letter will serve to grant the withdrawal of the J. H. Baxter & Company facility in Arlington, Washington, from the interim status program under 40 CFR 265 and WAC 173-303-400. The Washington State Department of Ecology (WDOE) was authorized by the U.S. Environmental Protection Agency (EPA) in August 1983 to grant such withdrawals. The facility may be withdrawn from interim status without first undergoing a formal closure procedure because you have demonstrated that:

- 1) the Part A application was filed as a protective measure only, and
- 2) hazardous waste has not been stored at the facility for longer than 90 days.

I have enclosed a blank Notification of Dangerous Waste Activities Form for you to fill out and submit to the department in order to change the facility's status regarding the type of dangerous waste activity conducted at the facility. Please submit the completed form to my attention at this office at your earliest convenience.
